¹ Dr. Franklin B. Hough was originally given the title of “Forestry Agent” in 1876. When the Division of Forestry was temporarily established in 1881, he was given the title of “Chief.”

² When Pinchot became Chief of the Division, he requested that his title be changed from “Chief” to “Forester,” as there were many Chiefs in Washington, but only one Forester. The “Forester” title remained in effect until 1935 when the title “Chief” was readopted.
